Subject: DS&G spring groundwater monitoring event

Doug,

As we discussed earlier, EPA is planning to collect groundwater split samples to be analyzed for PFCs during the Trust's spring sampling event. I would like to request the Trust's cooperation in purging and obtaining samples from the following list of wells using materials which do not contain PTFE. Please let me know as soon as possible if the Trust will not be able to accommodate this request. In addition, please notify me and Aaron of the planned sampling schedule by January 12, 2015.

Wells to be sampled for PFC analysis:

C-18D
B-4DR
GA-101
PZ-6S
MHW-1M
P-6
UPA-02D

Thank you for your cooperation.

Debbie
